RE: Found Child Update

Many of you have heard that we found a child wandering in the area by herself around 9 a.m. yesterday morning near the intersection of Lake and Main. The child was brought to Neenah PD where Child Protective Services were contacted and the child is safe. The mother contacted our PD hours later. That was great news!

As of today, charges have been referred to D.A.'s Office for Neglect. Due to the sensitivity of the case (child's age), we are not releasing any more information on the case. Please know this, the child is safe! That's the important thing to remember and thanks again everyone for your patience on this.
