DEAN R. KAUFERT

Mayor

Members of the Common Council and Community City of Neenah Neenah, Wisconsin

Dear President Stevenson, Council Members and Citizens,

It is my pleasure to present the recommended 2018-2022 Five Year Capital Improvement Plan. The proposals within this document are laid out to insure an informative, user friendly and easy to understand document that helps prepare our community for the future.

As in previous years this document serves as a guideline for future infrastructure and equipment needs. Our department heads and staff have been diligent in preparing and planning for our future. This roadmap gives guidance on the direction staff and leaders can plan for future investment and spending needs.

I want to thank the Council for your leadership in helping to create our previous five-year plans. The changes made to this and previous documents are well thought out based on good discussion. I strongly believe that projecting future needs today will enhance our ability to grow this community for future generations.

Once again the Finance Department led by Director Mike Easker and Office Manager Deb Calebrese have done an excellent job in providing insight, helpful advice and guidance in assisting me with this document.

The changes made by the Council for this year's CIP were well thought out and improved the documents of providing direction for the long term planning process. The decision to separate the previously approved 2018 decisions made in November, improved the process.

While laying out our priorities for the next 5 years is important we must remember to maintain the ability to be flexible enough to adjust for unanticipated needs. And to be constantly aware of the financial impact of the city's borrowing on future generations. The document will undergo continuous modifications as we project into the later years and items will move from year to year based upon many factors. I spent a lot of time on 2019 and left many requests in the later years as place holders for projects that may or may not happen due to financial considerations.

Last year I mentioned the projected borrowing requests will continue to climb higher than I want this city to be at. Looking at the overall General Summary quickly shows that the needs and requests are clearly greater than the level of funds available to borrow to meet the requests. A

CITY OF NEENAH Office of the Mayor

April 20, 2018 - Page 2

larger discussion on the level of borrowing and the goals of paying off more than we borrow in a year will need to be taken up at some time. The initial requests for borrowing were over \$17.8 million dollars for 2019 and I worked very hard to get below \$10 million in borrowing. While larger than previous years this is a number we can still manage. Thus, I have decided against including many large new requests in my plan this year. There are some requests which present a significant increase in dollars that I want to further study before making a recommendation at this time. While improving the infrastructure will continue to be a priority, conservative financial planning must be part of our discussion.

As in past years, our previous goals have not changed. Our commitment to provide quality services to our residents, making strides of improving our infrastructure, and controlling borrowing by paying off more debt than we borrow have not changed. The financial resources necessary to move forward and not fall further behind on road and street repairs will continue to be a challenge. However, continued planning for future infrastructure improvements will prepare us when economic development opportunities within our community in the future arise.

I'm hopeful that in 2019 we will seriously look at other funding models for street reconstruction projects. Once again I challenge the Council to look at other alternatives such as the proposed Transportation Fee or other options that some communities have adopted. The system of assessments to the property owners has been in place for a very long time. Many citizens have weighed in on the question and I have found overwhelming support for a different system.

I would like to share a few highlights with you contained in this document.....

Our Downtown Business District continues to be a shining star exhibiting how a downtown can prosper with the proper mix of retail and office space. Our previous decisions in our downtown TIF's and the surrounding areas see continued growth and opportunities for future projects. I'm strongly committed to creating more parking for the entire area and will work with staff to identify possible locations and potential development projects. We have made inquiries with developers about the possibilities of a parking structure that incorporates high rise apartment or condo living within the area. The lack of quality housing downtown has been noted by many as an area we need to address. Until a project commits, I have deferred the request until that time. When and if a project comes forward, I will propose a possible borrowing or funding package. I have included \$400k for land assemblage or project assistance needs.

I have also included \$100k for a potential private/public investment in downtown DC2 (Plexus lawn facing Wisconsin Avenue) area including public entities. More discussion will take place with the Council soon.

I was forced to defer for one year some road projects around the community. I personally drove and walked around every proposed street reconstruction project to view the conditions. I did my best to prioritize the work and be cognizant of the available funding. The hope is to try and coordinate street projects by area therefore only disrupting the neighborhood once. Because the list will keep getting longer and quite a bit more expensive in future years, I have tried to move

CITY OF NEENAH Office of the Mayor

April 20, 2018 - Page 3

some projects around in an attempt to allocate the cost over years to eliminate peaks and valleys in our total projects.

I tried to leave maintenance dollars of existing buildings in the document to make sure they have a longer lifespan. The amount of yearly maintenance costs just to keep up is expected to grow as we add new facilities.

The Council has made the decision to begin automated garbage collection soon and the dollars needed to purchase the necessary equipment is included. This is a major expense but necessary to begin implementation. The majority of the public supports this change.

One major change you will see is the decision to defer the Activity Building at Arrowhead Park to a future year. After listening to the debate by Council and wondering myself how all the potential pieces of the puzzle will fit on the site, I have decided to recommend moving forward with the park road, parking lots, storm water management and the shoreline habitat requests at this time. Until we understand the possibilities of siting other facilities, both public and private, I believe this is the best course of action.

Taking our time and doing it right will pay dividends down the road. The park has sat idle for a very long time and while I fully support the direction we are headed, I believe taking our time to make sure it is done right is the prudent thing to do. The Loop the Lake Trestle Trail opens this year and will show us the potential of the area. We may need to develop a plan for portable rest rooms for a year or a possible small standalone restroom facility. I would like further discussions this summer about the direction to go. I do believe moving forward with many of the requests will keep the momentum going on the project.

Our commitment to our park system is strong and Phase 3 of the plan will move forward in the plan. A request by the Police Department for a new building addition is being pushed back by a year. A new Chief will soon be onboard and a chance for them to determine priorities is important.

Providing a level of service for our residents or customers to be able to access their bills and information is important. Having an integrated organization (Enterprise Resource Planning Suite) where information is readily accessible to appropriate departments to utilize saves time and money. I have increased funding slightly to more aggressively upgrade our applications for a more seamless integration of data sharing for both departments and the public.

Maintaining our reserves at a reasonable level should continue to be a priority. Standard & Poor's has emphasized our good position by having over \$4.1 million in reserve. In this document I do propose using \$500,000 of storm water carry forward dollars for projects in 2019. Some members have expressed concerns of borrowing dollars only to have us not utilize them for some time while paying interest.

In Neenah, we do things big. Having quality projects is more important than having many good ones. Our staff often brings thoughts to me that say "What if we did this?" which is why we always

CITY OF NEENAH Office of the Mayor

April 20, 2018 - Page 4

have positive projects going on somewhere in the city. Throughout the document you will see efforts to fund projects that will bring value to the community. When a developer or someone comes forward with a vision we need to be prepared to partner with them to make it happen if possible.

The reality is we can only afford to do so much without additional resources. Due to levy and spending limits along with my desire to be careful with our borrowing level, I've had to make many difficult decisions throughout this document. Preparing for the future and leaving a solid base and foundation for the next generation of leaders will help make sure we leave our community in a better place for tomorrow.

Our goal of working together will help us accomplish many good things for the wonderful citizens and businesses that call our city home. This community is in a really good position for the future due to the hard work of this Council and staff. Our efforts to continue planning for the future will help pave the way for future growth and prosperity for all.

PROJECT DESCRIPTION	2018 BUDGET	DEPARTMENT	MAYOR	COUNCIL
2018 FACILITIES Administration Building 1. Repair Columbian Avenue stairway 2. Community Development office: Entrance replacement, work station modifications. Total 2018 Administration Building Police Department 1. Onsite Evidence Processing Area Upgrade. (Phase 1 of 2) Our proposed project has two pieces that will ensure compliance with state accreditation standards: A. Reconfigure the processing area to the current caged-in area in the garage. This will require buildout of an area where small items, all the way up to cars, could be processed. Counter space, exhaust hood(s) and temporary storage lockers will need to be relocated. Officers will be able to remove items from their cars directly into the processing area, creating efficiency and keeping contaminants (blood, liquids, drugs) out of the occupied areas of the building. B. The interior storage area will be outfitted with rolling storage shelves. The shelving will create a much more efficient use of the space. Our proposed project is split into two years, 2018 and 2019. It has two pieces that will ensure compliance with state accreditation standards.	\$6,000 8,000 \$14,000 \$50,000	\$6,000 8,000 \$14,000 \$50,000	\$6,000 8,000 \$14,000 \$50,000	\$6,000 8,000 \$14,000 \$50,000
2. Replace Roof of Police Building. This will be the 25th year of a roof that was expected to last 15 years. It is at the end of its life and will need complete replacement. (\$4.50/sq. ft.; 26,900 sq. feet)	122,000	122,000	122,000	122,000
Foundation repair (concrete walls cracking in two (2) locations, monitored annually). Moved from 2019.	20,250	20,250	20,250	20,250
Total 2018 Police Department	\$192,250	<u>\$192,250</u>	<u>\$192,250</u>	\$192,250

PROJECT DESCRIPTION	2018 BUDGET	DEPARTMENT	MAYOR	COUNCIL
AND PROGRAM COMMENTS	ADOPTED	REQUEST	RECOMMENDED	ADOPTED
Fire Department 1. Resurfacing of driveway and parking lot areas at Station 31 on the south and west sides of the building with 2" of asphalt being removed and replaced. Painting of parking stalls and lining included. Estimated cost \$110,000. This building is a City of Neenah property and Neenah is responsible for 100% of the project.	\$20,000	\$20,000	\$20,000	\$20,000
Total 2018 Fire Department	\$20,000	\$20,000	\$20,000	\$20,000
City Facilities 1. Tullar Garage: Door replacement. 2. Tullar Garage repairs: Precast concrete panel surface repairs and metal building repairs (gutters,ballards,door jams). 3. Tullar Garage North/South Vehicle Storage	\$10,000 20,000 4,000	\$10,000 20,000 4,000	\$10,000 20,000 4,000	\$10,000 20,000 4,000
Upgrade existing fluorescent lighting to LED lamps.

2019 FACILITIES Administration Building 1. Finance Dept Security and ergonomic improvements. Replace Night-drop box/Drive-Up Window (\$15,000). Install front-counter security glass, replace door separating lobby from office area (\$25,000). (1st time CIP request.)	\$40,000	\$40,000		
Total 2019 Administration Building	\$40,000	\$40,000		
Police Department 1. Onsite Evidence Processing Area Upgrade. (Phase 2 of 2) Our proposed project has two pieces that will ensure compliance with state accreditation standards: A. Reconfigure the processing area to the current caged-in area in the garage. This will require buildout of an area where small items, all the way up to cars, could be processed. Counter space, exhaust hood(s) and temporary storage lockers will need to be relocated. Officers will be able to remove items from their cars directly into the processing area, creating efficiency and keeping contaminants (blood, liquids, drugs) out of the occupied areas of the building. B. The interior storage area will be outfitted with rolling storage shelves. The shelving will create a much more efficient use of the space. Our proposed project was split into two years, 2018 and 2019. It has two pieces that will ensure compliance with state accreditation standards.	\$50,000	\$50,000		
Room Upgrades – Chief's Office. This will be deferred until whichever year a new chief is appointed.	7,000	7,000		
3. Replace Floor Tile. We need to completely replace the 26-year-old floor tiles. They are worn and peeling up at the corners in many places. We intend to replace them with rubber tiles like we use at the front desk area, which hold their color and pattern all the way through so no wear shows.	\$80,000	0		Move to 2021 w/possible expansion
Total 2019 Police Department	\$137,000	\$57,000

Fire Department 1. Replace roof over apparatus garage at Station 32. This roof has requried a few repairs in recent years. We would ask to replace the roof with a fully adhered rubber membrane roof. This would also add a R-13.6 value to the insulation already there. This building is a City of Neenah property and Neenah is responsible for 100% of the	\$21,000	\$21,000		
project. 2. Station 32 Apparatus Bay: Remove and replace concrete as needed. Epoxy floor Coating the entire apparatus bay which is 6,000 sq. ft. Due to the extreme conditions a fire station apparatus bay must stand up to, while still being cleanable and slip resistant, we are requesting the funds to have the concrete floors coated. Apparatus bays require a unique environment. They need a floor coating system that can withstand the weight and fluids from heavy vehicles while providing a highly aesthetic surface that is easy to clean. Estimated cost for concrete work is \$10,000. Estimated cost for epoxy work is \$25,000. Total estimated project cost is \$35,000. This building is a City of Neenah property and Neenah is responsible for 100% of the project.	35,000	35,000	Sin .	
Total 2019 Fire Department	\$56,000	\$56,000		
City Facilities 1. Tullar Garage Repairs: Precast concrete panel joint caulking. 2. Tullar Garage: Parking lot repairs; north side	\$30,000 15,000	\$30,000 · 15,000

Library 1. Replace outdoor electronic sign. A larger, raised electronic message center would allow for greater visibility and promotion of the library and its programs and services, as well as a way to reach the community in the case of emergencies or for promotion of community-wide events.	\$40,000	\$40,000		
Counter for laptop space - 1st and 2nd floors (1st time CIP request.)	25,000	25,000		
3. Exterior door from Story Time Room. The Youth Services workroom and the children's Story Time room do not have exterior doors or windows. The Story Time room is used daily with up to 50 children in attendance for a single program. There is a legitimate concern that in an emergency, evacuating 50 children from the Story Time room out the nearest exit could pose a significant safety risk to children, their parents and caretakers and staff. (Remaining in a room with a wall of interior windows poses an additional concern.) An exterior door leading out the back of the building will eliminate that risk. (1st time CIP request.)	30,000	15,000

			RECOMMENDED		
	PROJECT DESCRIPTION AND PROGRAM COMMENTS Building Addition. We are proposing an addition to our current building. When this building was built in 1994, it was considerably downscaled from its original design. We are outgrowing our space. Adding on to our existing building will be considerably cheaper than erecting a new building. The addition of a new training facility will free-up approximately 800 square feet of office space to meet present and future needs. This addition will also include an indoor range allowing our members to train here in the city, making training much more efficient and easier to schedule. We are currently using Fox Valley Technical College's (FVTC) range free of charge. This agreement ends in 2019. We are limited to working around other users scheduled on the range. The addition would also have a garage to allow easy access for our armored vehicle, crime scene vehicle, our training trailer and all of our Administrative and ISU vehicles. We believe that having vehicles parked inside will improve longevity and condition. Finally, the Community Room is frequently used by several external entities, and sometimes not available to us for our own purposes. With this proposed addition, we will have a large training room dedicated to our needs. Below is a rough draft of what this addition would look like. 	PROJECT DESCRIPTION AND PROGRAM COMMENTS	2018 BUDGET ADOPTED	DEPARTMENT REQUEST	MAYOR RECOMMENDED	COUNCIL ADOPTED
1.	Information Systems Enterprise Resource Planning Suite (ERP). ERP is a suite of integrated organization- wide software applications to support core business operations. Staff has identified both existing applications to be replaced and new applications to be implemented. This is anticipated to be a 3 - 4 year project with the outcomes being: seamless integration for data sharing between nearly all City applications, ability to more easily introduce dashboards and analytics for decision making and extending services to the public more efficiently through a web portal.	\$0	\$0	\$0	\$0
2.	Production Power Server (formerly an iSeries server) and Backup iSeries Server Replacements. The City of Neenah has historically replaced the production server every four to five years to take advantage of technology advancements, relocating the production server at the Redundant Data Center. The current production server was purchased in 2010 and the backup server in 2006. With the replacement of these servers, the City will be eliminating \$46,000-\$50,000 of hardware and software maintenance over the warranty period of three years. It is my opinion that this replacement strategy continue as the Power Server series along with the VMWare servers are the core of the City's technology environment.	65,000	65,000	65,000	65,000
3.	Citrix - DR Solution. Expand the Citrix (VDI) environment with failover capabilities between th Production Data Center and the Redundant Data Center (RDC) at Fire 31. This would also allow for staff to manually perform a partial load move to the RDC during extremely high workload periods if necessary. Moved to 2019.	25,000	25,000	25,000	25,000
	Door Swipe Access Control Solution (Phase 2). This phase would expand controlled access to departmental doors, basement door, Council Chambers door and fire stairwell doors on each floor. With all external doors (Phase 1) that was implemented in mid-2016, the entire City Hall building would be a controlled access environment.	35,000	35,000	35,000	35,000

Includes new cameras and equipment upon signing, halfway (2.5 years) and at the end of the contract (5 years), replacing equipment three times in five years.	20,480	20,480	20,480	20,480
7.	Night Vision Camera for Drone (FLIR). Cost of camera and required mounts in order to enable search operations at night, as well as checking for hot spots when assisting the Fire Department on fire scenes.	4,000	4,000	4,000	4,000

	PROJECT DESCRIPTION AND PROGRAM COMMENTS	2018 BUDGET ADOPTED	DEPARTMENT REQUEST	MAYOR RECOMMENDED	COUNCIL ADOPTED
8.	Replace Sniper Rifle A. Current rifle is not meeting standards necessary for effective use during a crisis situation. Working with the company had proven fruitless. Rifle needs to be replaced with one that can meet the rigorous standards. Total 2018 Police Department	5,000 \$146,380	5,000 \$146,380	5,000 \$146,380	5,000 \$146,380
	Fire Department				
1.	Major equipment such as new thermal imaging cameras, mobile data computers, hazmat meter monitors, automatic external defibrillator, extractors, radios, etc. Total projected cost \$25,000. City of Neenah responsible for fixed percentage as agreed to in the Consolidation Agreement. 2018 cost distribution formula (.5956%) is used for budgeting purposes.	\$14,890	\$14,890	\$14,890	\$14,890
2.	New engine to replace a 1998 Pierce Quantum engine. Total projected cost for the new engine and necessary equipment is \$590,000. The 1998 Pierce Quantum would be moved to reserve status and used when front line vehicles are down and/or an additional vehicle is needed for a major incident. City of Neenah responsible for fixed percentage as agreed to in the Consolidation Agreement. 2018 cost distribution formula (.5956%) is used for budgeting purposes.	351,410	351,410	351,410	351,410

	PROJECT DESCRIPTION AND PROGRAM COMMENTS	2018 BUDGET ADOPTED	DEPARTMENT REQUEST	MAYOR RECOMMENDED	COUNCIL ADOPTED
3.	SCBA replacement to stay current with anticipated NFPA requirements. All cylinders will go dormant near the end of 2019/beginning of 2020, which means they cannot be used at all. Total projected cost \$368,275. In 2017, NMFR was awarded a FEMA Grant of \$283,468 to help offset this cost. Required 10% matching funds are \$110,576. An additional \$78,000 is needed to purchase equipment as the grant award will not cover the entire amount. Total funds needed for this project are \$188,576, which is a reduction of \$179,699 of the orginal budgetd amount due to the grant award. Note: We will be able to sell parts of our current system and recoup money from the sale of this equipment. City of Neenah responsible for fixed percentage as agreed to in the Consolidation Agreement. 2018 cost distribution formula (.5956%) is used for budgeting purposes.	112,320	112,320	112,320	112,320

1.	Public Works Purchase five (5) automated collection trucks. Cost assumes dual hopper vehicles. Requested move from 2020.	\$1,500,000	\$1,500,000		
2.	Purchase refuse/recycling carts. Approx. 9,800 stops. Purchase 19,600 @ \$50/each. Begin program for automated garbage pickup beginning June 1, 2020. We are one of the last communities that have not made the transition and firmly believe that this will save time and money in the future. Other benefits will be fewer worker compensation injuries, increased free time for employees to engage in other work activities, appearance in the community and continuity in containers with lids. The cost includes funds to provide the homeowners with the initial two containers (one garbage, one recycling). Requested move from 2020.	980,000	980,000		된
3.	Replace #31/1998 Front end loader.	225,000	0		Move to 2020
	Replace #1A/2007 1500 Pick-up truck 4x4.	32,000	32,000		
5.	Replace Plasma Cutter.	4,500	4,500		
	Total 2019 Public Works (Equipment disposal value posted as revenue to the general fund.)	<u>\$2,741,500</u>	<u>\$2,516,500</u>
