Wellhead Protection Program Statement of Code Compliance

Property Owner's Name: _____

Property Address: _____

Existing Well

The well on your property must be permitted by the City of Neenah. You must either renew your permit or abandon your well.

In order to permit your Private Well, you must obtain an inspection of the well system performed by a licensed pump installer or a well driller for code compliance as well as providing two safe clear water tests that have been taken three weeks apart. Each water sample needs to be tested by an approved lab within 24 hours of taking the sample. Please send or bring in your inspection report, two clear water test results and the \$50.00 permit fee to Neenah Water Utility, 211 Walnut St., Neenah, WI, 3rd floor.

Well Abandonment Date: _____

The property identified above has an abandoned well on the premises without the required permits and inspections. By signing this document, the owner certifies that to the best of their knowledge and belief, and based on onsite observation, abandonment of the well has been completed and is in full conformity and compliance with all pertaining laws and all applicable code regulations of the State of Wisconsin and the City of Neenah. If possible supply us with a copy of the DNR abandonment report that was issued at the time the well was abandoned.

No well on property. By signing this document, the owner certifies that to the best of their knowledge and belief, and based on onsite observation, there has never been a well on this property.

In addition to any forfeitures imposed under Section 1-20 of the Neenah Municipal Code, if any person fails to comply with a well abandonment order for more than 20 days after receiving written notice of a violation, the Utility reserves the right to discontinue municipal water service for noncompliance. Reconnection of municipal water service will only be completed after any required inspections are complete and the penalties and reconnection charges are paid. In addition, the Utility may cause the well abandonment to be performed and the expense charged as a special tax against the property.
