New Software Launching in 2027!

We are excited to share that our team is working on transitioning to a new recreation management software that will go live in January 2027! Our commitment to our customers and providing them with a user-friendly, informative, and comprehensive experience with our department led us to choose the CivicPlus Recreation Management software. Because of this transition, we will be closing our activity/event registrations and facility rentals from December 15, 2026-January 4, 2027. The new software will launch at 12:00PM on Monday, January 4, 2027. All who register or make a shelter reservation before December 15, 2026 (including current registrations and reservations) will have that information transferred over to the new system - there is no need to do anything more on your end. More information will be released as we get closer to the go-live date!

New Partnership with the Neenah Middle School Pool

NEW

We are thrilled to have a new partnership with the Neenah Joint School District, in which we will be offering programming at the indoor Neenah Middle School Pool!
